

Fatma mezhoud

I am a recent graduate of EPI Digital School in Sousse with a major in Software Engineering. I am seeking job opportunities where I can leverage my technical expertise and innovative problem-solving skills. My education has provided me with a solid foundation in engineering principles, and I am eager to apply this knowledge in a professional setting, contribute to impactful projects, and drive technological progress.

Professional Experience

TSAST - Software Engineer Intern - Sousse, Tunisia

April 2024 - August 2024

- Developed a mobile learning application “E-learning” focused on enhancing user engagement, delivering quizzes, tests, exercises, and secure course transactions.
- Integrated fingerprint authentication and notifications to improve user experience and security, contributing to higher user satisfaction and retention rates.
- Designed and implemented course management features, enabling instructors to structure courses with sections, set pricing, and monitor sales performance.

Turquoise Agency - Software Developer Intern - Monastir, Tunisia

June 2023 - August 2023

- Built an internship management application to optimize recruitment workflows by tracking interns' availability across departments.
- Integrated a notification system to alert HR when interns' contracts ended, improving recruitment efficiency by 30%.
- Enhanced application usability and scalability by using Angular for the frontend and Spring Boot for backend services.

Educational Background

Bachelor of Engineering in Software Engineering

2021 - 2024

EPI - International Multidisciplinary School, Sousse, Tunisia

Preparatory Program in Engineering

2019 - 2021

EPI - International Multidisciplinary School, Sousse, Tunisia

Baccalaureate in Technical Sciences

2018 - 2019

Fattouma Bourguiba High School, Monastir, Tunisia

Notable Projects

Private Foodie Network

A private social network dedicated to food enthusiasts for sharing recipes, discovering new restaurants, and connecting over culinary experiences.

Technologies: React, Node.js, MongoDB

- Designed an interactive platform with features for creating posts, liking, and commenting to foster engagement.
- Integrated MongoDB for robust data management and optimized backend with Node.js for high performance and scalability.

Contact

- Monastir, Tunisia

My Skills

Programming Languages:

- Java
- JavaScript
- TypeScript

Frameworks:

- React,
- Node.js,
- Spring Boot,
- React Native,
- Flutter,
- NestJS

UI Libraries:

- Tailwind CSS
- Material UI
- Framer Motion

Databases:

- PostgreSQL
- MongoDB
- MySQL

DevOps:

- Git
- Docker

Other Skills:

- UI/UX Design

Languages

• Arabe • Français • Anglais

Certification/Short Courses

- CCNA1
- CCNA2
- Cisco DevNet Associate

Travel Agency Web Application

Developed a web application for a travel agency to showcase available trips, special offers, and facilitate online reservations.

Technologies: React, Node.js

- Designed an intuitive user interface allowing users to browse and book trips seamlessly.
- Implemented backend functionalities to manage bookings and real-time availability, increasing reservation efficiency.

E-commerce Website

Built an e-commerce website for online sales, featuring product listings, shopping cart, and checkout functionalities.

Technologies: React, Node.js

- Focused on a streamlined and user-friendly shopping experience to enhance customer satisfaction.
- Enabled secure payment integration and efficient product management, supporting smooth transactions.
